## PROFILE

Engineering student in the 3EA department (Electronics, Electrical Energy, Automation) at ENSEEIHT, passionate about aeronautics, space and energy. Trained in mathematics and physics in French preparatory classes, I connect theory to practice through programming (Python, C) and electronics. I am seeking a first-year engineering internship starting in June, with the ambition of an international engineering career.

## EDUCATION

**Engineering Program, 1st year, 3EA department | ENSEEIHT (Toulouse INP) | 2026 - 2027**

**Preparatory Classes (CPGE), MP - Mathematics & Physics | Lycée Albert Châtelet, Douai | 2025 - 2026**
In parallel: 2nd year of Bachelor's degree in Mathematics, University of Lille

**Preparatory Classes (CPGE), MPSI - Mathematics, Physics & Engineering Science | Lycée Albert Châtelet, Douai | 2024 - 2025**
In parallel: 1st year of Bachelor's degree in Mathematics, University of Lille

## PROJECTS

**Personal Research Project (TIPE), MPSI year (2024 - 2025): Handwritten character recognition with AI**

- Programmed an AI in Python capable of recognizing handwritten characters.
- Image preprocessing: character display, centering, pixelation.
- Evaluated the results using ground-truth matrices and probabilities.

**Personal Research Project (TIPE), MP year (2025 - 2026): Liquid level detector for industry**

- Designed a liquid level sensor based on quasi-sinusoidal oscillators.
- Studied amplifiers, filters, materials physics and electricity.
- Analyzed measurements and their uncertainties.

## SKILLS

Programming: Python, C

## WORK EXPERIENCE

**Multi-purpose Restaurant Crew Member | La Chicorée, Lille | June 2026 - September 2026**

**Maintenance and Cleaning Agent | EPDAH Lille Sud | September 2025 - June 2026**

## LANGUAGES

Wolof: native
French: fluent
English: B1 (TOEIC planned for late 2027)

## VOLUNTEERING
